# APRIL IS PET FIRST AID AWARENESS MONTH!

Do you know the basic signs of a pet emergency?

You should always contact Stonetree if you think your pet is experiencing a medical emergency, but these are a few possible signs to be aware of:

- Breathing or airway issues like labored breathing or panting, specifically when they're not active.
- Bleeding from wounds or orifices that doesn't stop after a few minutes.
- The color of their gums could indicate a medical emergency. Pink and moist is normal. White or pale pink is a sign of bleeding or shock. Gray or purple can be from a lack of oxygen.
- Straining to urinate (especially in male cats) can be a sign of urinary blockage.
- Intestinal blockages or stomach torsions could show as vomiting soon after eating/drinking, abdominal pain or distension, or an animal being weak or unable to stand.

# MARKET MINUTE

Brought to you by Legacy Real Estate - Dinah Pearson, Broker/Owner

## HERE'S WHY SMART BUYERS ARE STILL MOVING

No matter what the market is doing, smart buyers aren't sitting on the sidelines—they're making strategic moves. Why? Because real estate has never been about timing the market perfectly. It's about recognizing opportunity when it aligns with your goals.

*Right now, we're seeing buyers take advantage of:*

*Less competition | Room to negotiate | Time to make thoughtful decisions*

And in Southeast Alaska, where inventory is always limited, waiting too long can mean missing out entirely. For sellers, serious buyers are still out there—and they're motivated. The key is positioning your home correctly and pricing it to attract attention. Whether you're buying, selling, or just starting to think about it, understanding your options is the first step.

**Local Expertise, Real Results.**
